

# SILEXA COFFEE TERMINAL

## VENDING TRANSFORMER

## A COIN CHANGING EXPERIENCE

The SILEXA CoffeTerminal turns your espresso-machine to a vending machine. Get your coffee by inserting a coin, bills, your credit card, apple pay or even a customer card. A possible connection to a central server using LAN or a GSM interface allows to show turnovers and even error messages from all your locations. It's also possible to update products and pricing remotely.

- + quick and simple set-up
- + coffee-dispensing after transaction:
  - coin insert, also for tokens
